

Allamakee Accelerated Learning Program (AALP) Standards

Standard 1: Students develop an understanding of the many aspects of giftedness and the many ways giftedness affects them and others.

Programming, such as; competitions, projects, honors sections, and accelerated units/courses, meets the standards in the appropriate curriculum areas.

Curriculum:

Grades K-2: Students participate in informal conversations about abilities

Grades 3-12: Students utilize assessment, interest, and learning style surveys to better understand themselves and others.

Students read and discuss short stories and novels with gifted characters and engage in discussions about how the character's abilities affect their lives.

Students pursue topics of interest and share projects based on their research.

Students participate in contests and competitions based on their interests.
